DETAILED ACTION

Restriction Requirement

1.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 15-26 and 28, cosmetic for topical use and methods of photoprotection of the skin and/or the hair, classified in class 424/59.
- II. Claim 27, drawn to a compound of formula (2), classified in class 558, subclass 300+.

2.

Inventions II and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as

claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product such as titanium dioxide or a cinnamate.

3.

A telephone call was made to B. J. Sadoff on October 23, 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

4.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
